

Mehmet Mertkaan Erdem

I am built in a way that constantly challenges and tries to improve myself, not only throughout my education life, but also because I tend to learn at every moment of my life. My hobby is to use this enthusiasm for learning not only in the professional field but also for my personal development. In this context, I have always been interested in reading studies on history and sociology. What is more, I perform rap music as an amateur which allows me to relax mentally.
